

Our Town's got an IHN

Dad's lost his Job.
Mom's feeling Ill,
She's worried about the fact
That we don't have a place to live.

My brother and my sister
Told her not to have a fright.
For we all know, that we now have,
A place to stay the night.

Our Town's got an IHN,
We'll have a place to stay.
There is a Church where we can sleep,
And have a place to play.

Our Town's got an IHN,
It's home for a week or two.
They serve hot food for nourishment,
and prayers for me and you.
